

**THE
JOINT
MULTIYEAR
ACCESSIBILITY
PLAN 2022-2025**

Background: Accessibility and the Province of Ontario

There are currently two active pieces of legislation in Ontario that specifically address accessibility: The Ontarians with Disabilities Act, 2001 (ODA) and the Accessibility for Ontarians with Disabilities Act, 2005, (AODA).

The purpose of the ODA is to improve the quality of life and experiences of persons with disabilities by identifying, preventing and removing any barriers that may limit opportunities for individuals with disabilities to fully participate in society.

The AODA advances the goals of the ODA by requiring public, private and non-profit organizations to identify, remove and prevent barriers to accessibility in order to make the Province of Ontario fully accessible for all persons with disabilities by 2025. Through the AODA and the Integrated Accessibility Standards Regulation (IASR) (Ontario Regulation 191/11), the Government of Ontario has identified key areas for the development of common accessibility standards that are intended to ensure all sectors and organizations can provide fully accessible services and environments for Ontarians. The goal of these standards is to facilitate the full participation of persons with disabilities in society.

Key areas identified under the AODA are Customer Service, Information and Communications, Employment, Transportation and the Design of Public Spaces.

There are two definitions provided within the AODA that we want to ensure are understood by everyone however and they are as follows:

Definitions

"disability" means,

(a) any degree of physical disability, infirmity, malformation or disfigurement that is caused by bodily injury, birth defect or illness and, without limiting the generality of the foregoing, includes diabetes mellitus, epilepsy, a brain injury, any degree of paralysis, amputation, lack of physical co-ordination, blindness or visual impediment, deafness or hearing impediment, muteness or speech impediment, or reliance on a service dog or other animal or on a wheelchair or other remedial appliance or device,

"barrier" means,

anything that prevents a person with a disability from fully participating in all aspects of

society because of his or her disability, including a physical barrier, an architectural barrier, an information or communications barrier, an attitudinal barrier, a technological barrier, a policy or a practice;

Commitment to Accessibility

Our goal is to ensure accessibility for our employees and the public we serve in our services, products and facilities. Employees need to be able to function effectively and customers need to receive timely, high quality services in a way that works for them.

We want to provide excellent public service for all Ontarians. We want to reflect the public we serve in everything we do and we want to attract the talented people we need to fill jobs. Building a dynamic and accessible organization will help us reach these goals.

The nine municipalities that make up the County of Dufferin are committed to:

- The continual improvement of access to municipal facilities and services for people with disabilities
- The participation of people with disabilities in the development and review of its multi-year accessibility plan
- The provision of quality services to all members of the community
- Meeting and, where possible, exceeding the accessibility requirements under the AODA

Accessibility Plan

Since 2004 all municipalities in the Province have had a legal obligation under the ODA to develop annual accessibility plans. Under the AODA, accessibility planning requirements shift from annual to multi-year plans which must outline an organization's strategy to prevent and remove barriers and meet the requirements under the Integrated Accessibility Standard Regulation (IASR).

This Plan describes:

- The measures that the municipalities have taken over previous years to remove barriers to people with disabilities
- The process by which the municipalities are identifying, removing and preventing

barriers to people with disabilities

- The ongoing activities the municipalities will take to remove barriers to people with disabilities
- How this plan will be communicated with the community

Accessibility Advisory Committee

The Joint Accessibility Advisory Committee is comprised of members from across Dufferin County, the majority of whom live with a disability.

The Joint Accessibility Advisory Committee is a legislatively mandated Committee that formed in 2019 when Access Orangeville and Access Dufferin amalgamated to provide a more consistent approach to accessibility initiatives across the County.

- As required by the Accessibility for Ontarians with Disabilities Act, a majority of the members of the committee are persons with disabilities (Section 29 (3)).
- The Committee shall be comprised of a maximum of twelve (12) members.
- A minimum of three (3) and a maximum of five (5) members will be appointed by the County to represent areas outside of Orangeville.

The Committee advises Council about the preparation and implementation of the Multiyear Accessibility Plan, on promoting and facilitating a barrier-free municipality for citizens of all abilities. The Committee's role in helping foster a community approach to accessibility and inclusion involves the review of municipal policies, programs and services and the identification, removal and prevention of barriers faced by persons with disabilities.

Consultation

In the preparation of this plan the municipalities conducted the following consultation activities:

- Consultation with the Joint Accessibility Advisory Committee to ensure input is received from all members
- Consultation with residents.
- Consultation with staff.

Communication of the Accessibility Plan

The approved Multiyear Accessibility Plan shall be posted on the municipality's website and be provided in an accessible format upon request. The Plan will also be available for review at all Public Library Branches and all municipal offices.

Contact Information

The municipality is committed to ensuring accessibility is a reality throughout all facilities and business operations. Please contact us with your questions, ideas or comments.
